

“CCA Practical 2: Installation and Configuration of Justcloud”

Step 1: Type justcloud.com/download in a browser & your Justcloud setup download will automatically start and you just need to save it in a folder:

Step 2: Open the Justcloud installation wizard and click on Install button:

Step 3: The wizard would install all the files necessary automatically and you just need to click on the “Finish” button:

Step 4: Create an account by putting in your credentials as needed & click on next:
